Credentialed Teachers with Time For Your Child

Our Services

We offer personalized, K-8 tutoring in all subject areas. Our goal is to assess obstacles that are interfering with your child's academic success and to offer tools and strategies to improve their performance.

We offer 50-minute sessions, one-on-one with a certified teacher. We encourage a cooperative effort between students, parents and teachers. We will use individually designed pre- and post- assessments in order to best assess your child's progress.

In our initial intake session, students and parents will meet with a tutor to determine how best to address your child's needs. Monthly, bi-monthly, weekly and bi-weekly tutoring sessions are available. While we do not guarantee easy solutions, we are dedicated to working toward a solution that best meets the needs of your child.
